SWITCH SOCKET
RTZ

- a/ European style in appearance, accords with the demands of the International markets.
- b/ The elliptic screw hole makes the Installation easier and more flexible.
- c/ Wire connection hole has direction which is easy to connect the wire.
- d/ The base is surrounded by the middle plate, All the components coordinate precisely and highlight the layer of the product.
- e/ Clear identification meets the British Standard and the requirements of international market.
- f/ The base height is ultra-thin and ultra-low (only 19.3mm), providing a bigger space for wiring in the flush box.

Flip-open panel makes the installation more direct, more effective and more convenient as well as presenting us a better appearance
